RENO, NEVADA 89509

BOWEL PREP-DR. JUELL

Purchase 1 bottle of magnesium citrate from any pharmacy. It is sold in the laxative department. Drink 1 bottle of magnesium citrate 2 days prior to your surgery in the morning.

You will only be allowed clear liquids after you drink the bottle of magnesium citrate. Examples of clear liquids are: jello, broth, Gatorade, 7-up, apple juice.

The next medications you will need to take are 2 different antibiotics. The two antibiotics are Neomycin 1 gram and Flagyl 500mg. There will be 4 doses of the antibiotics which you will start taking the day prior to surgery. You will take them at 8:00am, 2:00pm, and 8:00pm. The last dose of antibiotics you will take at 6:00am (with a sip of water) the morning of your surgery. You will need to let us know which pharmacy you would like to have your prescriptions phones into.

DO NOT EAT OR DRINK ANYTHING AFTER MIDNIGHT THE NIGHT PRIOR TO YOUR SURGERY UNLESS INSTRUCTED OTHERWISE.
